Toowoomba Regional Council.

The once KR Castlemaine Owned Land now proposed 54 Hectare Site for 1100 Home Estate Development.

I feel with removal of trees along Murphys Creek and Mt Kynoch for the By Pass, as nearly in completion "Multuggera Way", let along loss of Koala Habitat and Native Wildlife.

Suggestion: 40% of The KR site be a Museum /Tafe and 40% replaced with trees to combat the fumes of heavy transport and last 10% for housing and 10% for large Underground Concrete Storage Water.

KR had so much history and was the largest employer for years.

We have lost so much history Southern Cross, KR. We should be proud of the Inventions from this Region. 2 Defence Depts here on the Darling Downs (Oakey and Cabarlah) and tourists support R S L Clubs not a decent club.

The existing Museum in Campbell Street and with the closure of Museum in Anzac Avenue can be amalgamated as one or side by side.

Regards Lyn Yeo.

L. Yeo
