Alice

We consent to the extension of time.

We would like to submit some addition data in support of our Change Application.

Attached is:

1. Cenaphora Investments' letter outlining the addition information provided in support of the change application.
2. Burchills Traffic Report - which calculate that the 33 carparks is sufficient for the 21 staff members.

We trust this addition information supports our application and allows Council to make a favourable decision.

Regards

Dallas Hunter
