

Dear Councillors,

Meringandan is one of the oldest settlements in the Toowoomba Region, with a history dating back to 1868. For more than 150 years, it has retained a distinct rural village character, rich heritage, and strong community identity. Today, residents fear that character is at risk.

Recent development outcomes, including proposals for lots as small as 325m², are fundamentally different from the established character that has attracted generations of residents to Meringandan and Meringandan West. Without stronger protections, there is a genuine risk that one of the region's oldest historic communities will gradually lose the very qualities that make it unique and be transformed into a suburban-style housing estate inconsistent with its history, identity and sense of place.

We write as residents of Meringandan, Meringandan West, Highfields and surrounding areas to request that Council take action to protect the character of our communities and ensure that future growth reflects the intent of the Toowoomba Regional Planning Scheme Version 28. Many residents have chosen to live, invest and raise their families in this area because of its semi-rural lifestyle, spacious allotments and distinct identity. These are not accidental qualities; they are expressly recognised and protected within the Planning Scheme.

The Planning Scheme identifies that development in Meringandan and Meringandan West should:

- be consistent with the existing community character and urban form (Part 7.2.1.2 – Highfields, Meringandan and Meringandan West Local Plan Code – Meringandan West);
- reflect the established character of Meringandan (Part 7.2.1.2 – Context and Setting – Meringandan);
- reinforce the distinct identity of the community (Part 7.2.1.2 – Context and Setting); and
- maintain the semi-rural character of the locality and avoid adverse impacts on its future urban form (Part 6.6.2 – Emerging Community Zone Code, PO2).

Residents have made significant financial and lifestyle commitments based on the reasonable expectation that these planning outcomes would guide future development decisions. While we support growth and recognise the need for additional housing, growth must occur in a way that respects the history, identity and planning intentions of the community.

Key Concerns

- Development outcomes are emerging that appear inconsistent with the character objectives of the Highfields, Meringandan and Meringandan West Local Plan.
- Proposed lot sizes of 325m² are substantially smaller than the established development pattern within Meringandan and Meringandan West.
- Residents are concerned that continued approval of higher-density suburban-style development will erode the township's unique character and identity.
- Confidence in the planning framework depends on development decisions aligning with the outcomes and expectations established by the Planning Scheme.

We Respectfully Request That Council:

- Introduce a minimum lot size of 667m² within Meringandan and Meringandan West.
- Ensure development remains consistent with the established character, urban form and community identity recognised in the Highfields, Meringandan and Meringandan West Local Plan.
- Apply the intent of the Emerging Community Zone Code by maintaining the semi-rural character of the locality and protecting its future urban form.
- Ensure future development approvals align with the intent and outcomes of Version 28 of the Toowoomba Regional Planning Scheme.
- Ensure future growth strengthens and complements, rather than diminishes, the character of Meringandan and Meringandan West.
- Use the concerns raised through this petition to inform future reviews of the Toowoomba Regional Planning Scheme and the Highfields, Meringandan and Meringandan West Local Plan, including the introduction of stronger protections for community character, heritage values and minimum lot sizes.

This petition is not an attempt to stop growth. It is a call for growth that respects Meringandan's 150-year history, preserves its rural village character, and honours the planning outcomes Council has already recognised as important.

We respectfully ask Council to act now to protect the unique identity of Meringandan and Meringandan West, before it is lost forever.

Thank you for your consideration.

Yours sincerely,

Rebecca Reid

On behalf of residents of Meringandan, Meringandan West, Highfields and surrounding areas

PETITION TO TOOWOOMBA REGIONAL COUNCIL

To: The Chief Executive Officer Toowoomba Regional Council PO Box 3021 TOOWOOMBA QLD 4350

This petition is from: Residents of Meringandan and surrounding areas.

The petition draws to Council's attention: Development Application RAL/2025/5992 for a proposed residential subdivision in Meringandan. The proposal conflicts with the Highfields, Meringandan and Meringandan West Local Plan Code, which encourages only minor expansion of the township and requires development in the Township Expansion Area to reflect existing community character and urban form. The proposed density—predominantly 300–500 m² lots—is inconsistent with the established character of Meringandan. The scale and pattern of development would not strengthen or consolidate the existing community but instead replace its character, contrary to the Local Plan intent. Approval would undermine community expectations, planning certainty, and the integrity of the Planning Scheme.

We therefore request Council to: Refuse Development Application RAL/2025/5992 in its current form; or impose a minimum lot size of 667 m² to ensure development aligns with the Local Plan and community character. The facts and circumstances in support of this position are detailed in the letter to Council prepared by Rebecca Reid.

Principal Petitioner: Rebecca Reid Address: 30 Aquila Drive, Meringandan West, QLD, 4352 Date:

PETITION TO TOOWOOMBA REGIONAL COUNCIL

To: The Chief Executive Officer Toowoomba Regional Council PO Box 3021 TOOWOOMBA QLD 4350

This petition is from: Residents of Meringandan and surrounding areas.

The petition draws to Council's attention: Development Application RAL/2025/5992 for a proposed residential subdivision in Meringandan. The proposal conflicts with the Highfields, Meringandan and Meringandan West Local Plan Code, which encourages only minor expansion of the township and requires development in the Township Expansion Area to reflect existing community character and urban form. The proposed density—predominantly 300–500 m² lots—is inconsistent with the established character of Meringandan. The scale and pattern of development would not strengthen or consolidate the existing community but instead replace its character, contrary to the Local Plan intent. Approval would undermine community expectations, planning certainty, and the integrity of the Planning Scheme.

We therefore request Council to: Refuse Development Application RAL/2025/5992 in its current form; or impose a minimum lot size of 667 m² to ensure development aligns with the Local Plan and community character. The facts and circumstances in support of this position are detailed in the letter to Council prepared by Rebecca Reid.

Principal Petitioner: Rebecca Reid	Address: 30 Aquila Drive, Meringandan West, QLD, 4352	Date:
Email: rebeccamaereid@hotmail.com	Phone: 0488068284	Signature:

PETITION TO TOOWOOMBA REGIONAL COUNCIL

To: The Chief Executive Officer Toowoomba Regional Council PO Box 3021 TOOWOOMBA QLD 4350

This petition is from: Residents of Meringandan and surrounding areas.

The petition draws to Council's attention: Development Application RAL/2025/5992 for a proposed residential subdivision in Meringandan. The proposal conflicts with the Highfields, Meringandan and Meringandan West Local Plan Code, which encourages only minor expansion of the township and requires development in the Township Expansion Area to reflect existing community character and urban form. The proposed density—predominantly 300–500 m² lots—is inconsistent with the established character of Meringandan. The scale and pattern of development would not strengthen or consolidate the existing community but instead replace its character, contrary to the Local Plan intent. Approval would undermine community expectations, planning certainty, and the integrity of the Planning Scheme.

We therefore request Council to: Refuse Development Application RAL/2025/5992 in its current form; or impose a minimum lot size of 667 m² to ensure development aligns with the Local Plan and community character. The facts and circumstances in support of this position are detailed in the letter to Council prepared by Rebecca Reid.

Principal Petitioner: Rebecca Reid Address: 30 Aquila Drive, Meringandan West, QLD, 4352 Date:

Email: rebeccamaereid@hotmail.com Phone: 0488068284 Signature:

The petition draws to Council's attention: Development Application RAL/2025/5992 for a proposed residential subdivision in Meringandan. The proposal conflicts with the Highfields, Meringandan and Meringandan West Local Plan Code, which encourages only minor expansion of the township and requires development in the Township Expansion Area to reflect existing community character and urban form. The proposed density—predominantly 300-500 m² lots—is inconsistent with the established character of Meringandan. The scale and pattern of development would not strengthen or consolidate the existing community but instead replace its character, contrary to the Local Plan intent. Approval would undermine community expectations, planning certainty, and the integrity of the Planning Scheme.

We therefore request Council to: Refuse Development Application RAL/2025/5992 in its current form; or impose a minimum lot size of 667 m² to ensure development aligns with the Local Plan and community character. The facts and circumstances in support of this position are detailed in the letter to Council prepared by Rebecca Reid.

PETITION TO TOOWOOMBA REGIONAL COUNCIL

To: The Chief Executive Officer Toowoomba Regional Council PO Box 3021 TOOWOOMBA QLD 4350

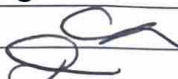

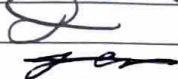

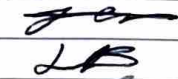

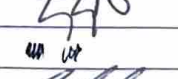

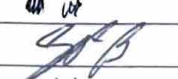

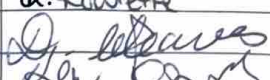

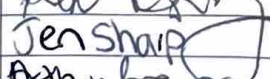

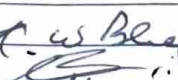

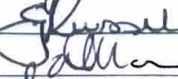

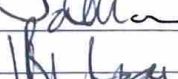

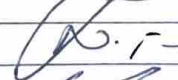

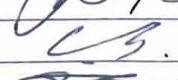

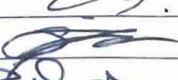

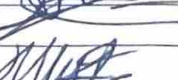

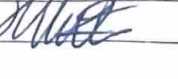

This petition is from: Residents of Meringandan and surrounding areas.

The petition draws to Council's attention: Development Application RAL/2025/5992 for a proposed residential subdivision in Meringandan. The proposal conflicts with the Highfields, Meringandan and Meringandan West Local Plan Code (V28.0, 2022), which (a) encourages only minor expansion of the township and (b) requires development in the Township Expansion Area to reflect existing community character and urban form. The proposed density—predominantly 300-500 m² lots—is inconsistent with the established character of Meringandan. The scale and pattern of this development would not strengthen or consolidate the existing community but, contrary to the Local Plan intent, replace its character and urban form entirely. Approval would undermine community expectations, planning certainty, and the integrity of the Planning Scheme.

We therefore request Council to: Refuse Development Application RAL/2025/5992 in its current form; or impose a minimum lot size of 667 m² to ensure development aligns with the Local Plan and community character and urban form. The facts and circumstances in support of this position are detailed in the letter to Council prepared by Rebecca Reid.

PETITION TO TOOWOOMBA REGIONAL COUNCIL

To: The Chief Executive Officer Toowoomba Regional Council PO Box 3021 TOOWOOMBA QLD 4350

This petition is from: Residents of Meringandan and surrounding areas.

The petition draws to Council's attention: Development Application RAL/2025/5992 for a proposed residential subdivision in Meringandan. The proposal conflicts with the Highfields, Meringandan and Meringandan West Local Plan Code (V28.0, 2022), which (a) encourages only minor expansion of the township and (b) requires development in the Township Expansion Area to reflect existing community character and urban form. The proposed density—predominantly 300-500 m² lots—is inconsistent with the established character of Meringandan. The scale and pattern of this development would not strengthen or consolidate the existing community but, contrary to the Local Plan intent, replace its character and urban form entirely. Approval would undermine community expectations, planning certainty, and the integrity of the Planning Scheme.

We therefore request Council to: Refuse Development Application RAL/2025/5992 in its current form; or impose a minimum lot size of 667 m² to ensure development aligns with the Local Plan and community character and urban form. The facts and circumstances in support of this position are detailed in the letter to Council prepared by Rebecca Reid.

Principal Petitioner: Rebecca Reid	Address: 30 Aquila Drive, Meringandan West, QLD, 4352	Date:
Email: rebeccamaereid@hotmail.com	Phone: 0488068284	Signature:

PETITION TO TOOWOOMBA REGIONAL COUNCIL

To: The Chief Executive Officer Toowoomba Regional Council PO Box 3021 TOOWOOMBA QLD 4350

This petition is from: Residents of Meringandan and surrounding areas.

The petition draws to Council's attention: Development Application RAL/2025/5992 for a proposed residential subdivision in Meringandan. The proposal conflicts with the Highfields, Meringandan and Meringandan West Local Plan Code, which encourages only minor expansion of the township and requires development in the Township Expansion Area to reflect existing community character and urban form. The proposed density—predominantly 300–500 m² lots—is inconsistent with the established character of Meringandan. The scale and pattern of development would not strengthen or consolidate the existing community but instead replace its character, contrary to the Local Plan intent. Approval would undermine community expectations, planning certainty, and the integrity of the Planning Scheme.

We therefore request Council to: Refuse Development Application RAL/2025/5992 in its current form; or impose a minimum lot size of 667 m² to ensure development aligns with the Local Plan and community character. The facts and circumstances in support of this position are detailed in the letter to Council prepared by Rebecca Reid.

Principal Petitioner: Rebecca Reid Address: 30 Aquila Drive, Meringandan West, QLD, 4352 Date:

The petition draws to Council's attention: Development Application RAL/2025/5992 for a proposed residential subdivision in Meringandan. The proposal conflicts with the Highfields, Meringandan and Meringandan West Local Plan Code, which encourages only minor expansion of the township and requires development in the Township Expansion Area to reflect existing community character and urban form. The proposed density—predominantly 300–500 m² lots—is inconsistent with the established character of Meringandan. The scale and pattern of development would not strengthen or consolidate the existing community but instead replace its character, contrary to the Local Plan intent. Approval would undermine community expectations, planning certainty, and the integrity of the Planning Scheme.

We therefore request Council to: Refuse Development Application RAL/2025/5992 in its current form; or impose a minimum lot size of 667 m² to ensure development aligns with the Local Plan and community character. The facts and circumstances in support of this position are detailed in the letter to Council prepared by Rebecca Reid.

PETITION TO TOOWOOMBA REGIONAL COUNCIL

To: The Chief Executive Officer Toowoomba Regional Council PO Box 3021 TOOWOOMBA QLD 4350

This petition is from: Residents of Meringandan and surrounding areas.

The petition draws to Council’s attention: Development Application RAL/2025/5992 for a proposed residential subdivision in Meringandan. The proposal conflicts with the Highfields, Meringandan and Meringandan West Local Plan Code (V28.0, 2022), which (a) encourages only minor expansion of the township and (b) requires development in the Township Expansion Area to reflect existing community character and urban form. The proposed density—predominantly 300-500 m² lots—is inconsistent with the established character of Meringandan. The scale and pattern of this development would not strengthen or consolidate the existing community but, contrary to the Local Plan intent, replace its character and urban form entirely. Approval would undermine community expectations, planning certainty, and the integrity of the Planning Scheme.

We therefore request Council to: Refuse Development Application RAL/2025/5992 in its current form; or impose a minimum lot size of 667 m² to ensure development aligns with the Local Plan and community character and urban form. The facts and circumstances in support of this position are detailed in the letter to Council prepared by Rebecca Reid.
