Dear Sir/Madam,

Ergon Advice Agency Response
Our Ref: ECM 27170696 - 42155352

This Referral Agency response is given under section 56 of the *Planning Act 2016*.

Response	
Outcome	Approved in full – No objection
Date of response	7 August 2026
Referral assessment capacity	Advice
Matters referral assessment made against (S55(2))	The purpose of the <i>Electricity Act 1994</i> and <i>Electricity Safety Act 2002</i>
Reasons for decision (S56(7)(b))	The works do not conflict with: ▪ the objectives set out within Part 2, Section 3 of the <i>Electricity Act 1994</i> ▪ the purpose of the <i>Electricity Safety Act 2002</i> as set out within Part 1 Division 2 Section 4 & 5. The works do not adversely impact on the safe, efficient, and economically viable operation of the supply network.

Table 1			
Plans forming part of this Approval			
<i>Title</i>	<i>Plan No.</i>	<i>Issue</i>	<i>Date</i>
Locality Plan	1081.DA.00.001	D	9/07/2026

General Advice:

- Ergon's referral response is limited to the management of impacts on electrical infrastructure within its referral jurisdiction and does not assess or confirm electricity supply, network capacity, or connection requirements; proponents must undertake a separate connection enquiry via Ergon's Customer Portal to initiate investigations and obtain formal advice and approvals relating to network connections.

Have you seen our fact sheets?

See the 'considerations when developing around electricity infrastructure' section of our website www.ergon.com.au/referralagency

- Compliance with the Electrical Safety Act 2002, including any Code of Practice under the Act and the Electrical safety Regulation 2013 including any safety exclusion zones defined in the Regulation is mandatory

Should any doubt exist in maintaining the prescribed clearance to the overhead conductors and electrical infrastructure then the applicant is obliged under the Act to seek advice from Ergon.

- Any costs incurred by Ergon as a result of the works on the easement are to be met by the property Developer / owner.
- This response does not constitute an approval to commence any works within the easement. Consent to commence works relevant to the conditions of the easement is required. All works on easement (including but not limited to earthworks, drainage and detention basins, road construction, underground and overhead services installation) require detailed submissions, assessment, and consent (or otherwise) by Ergon.
- All works proposed to be undertaken in close proximity to overhead or underground electrical lines are to be undertaken in accordance with Ergon's Works Practice Manual WP1323. This document refers to various standards, guidelines, calculations, legal requirements, technical details, and other information relevant to working near high voltage infrastructure. A copy of WP1323 can be found online via Ergon's document library ([Document library | Ergon](#)).

Should you require any further information on the above matter, please contact the undersigned on 0428 943 997 or via email at townplanning@ergon.com.au.

Yours faithfully,

Scott Pearson
Senior Town Planner
