There has been an application to vary the planning scheme for this property. I've often seen wallabies/kangaroos in the area early in the morning, right in the vicinity of the development sign. I'm concerned that a lot of wallabies/kangaroos have already had their habitats encroached on by the housing developments at the southern end of Kearney Street. It's not uncommon to see a dead kangaroo that's been hit by a car in roads nearby. I'm concerned that any further development will further encroach on the habitat of our native animals, and I urge council to leave this part of Toowoomba untouched by more development.

Attach any documentation in support of the grounds raised in your submission
